On Water Activities

On water events is what SoPYC is all about. The Club strongly encourages on-water competition and participation of members as part of a active and successful yacht club. There are many ways for boat owners to participate in Club activities with yacht racing for sail boats, time trialling events for power boats and recreational cruising for both sail and power.

SAILING

Our sailing fleets comprise of boats from eight foot long children's dinghies to ocean racing keelboats, sixty feet in length. Sailing is very much a family sport and active sailors at our club range in age from eight to eighty years, All are welcome! Our sailing programs operate all year long, on Saturdays, Wednesday afternoons and Thursday evenings for keelboats and Sundays for dinghies and Centreboard yachts.

POWER YACHTS

There is a very active powerboat section at SoPYC. The Club's Time Trialling season is conducted from May to September each year. Time trialling is a boating activity available to any members with a craft capable of navigating at a speed between 5 and 15 knots under engine power. A time trial event involves travelling and accurately maintaining a predetermined course between markers on the river at a nominated speed. Family participation is possible and it provides an excellent opportunity to use your boat during the winter season, learn the local water and learn the capabilities of your boat

CRUISING

The Cruising Section of the Club is all about recreational boating. With activities that appeal to those of us who want to get out on the water with friends and families and enjoy our fabulous river and coast.

The Cruising Section organise events for all members throughout the year, both on and off the water.
